

## **“Tribute to DAN”**

copyright 2018 by Dana Bookbinder

### **Opening narration:**

Meet DAN. A simple being, in a complex world. DAN received a special inheritance, will use a portion, and pass some on. Over the next few moments we'll travel with DAN, seeing the formation and development of love, fear, hate, hunger, want and hope, and of feeling, but with no emotion, yet having the desires of every species...in *The Twilight Zone*.

### **Closing narration:**

We've seen a glimpse of DAN's world. DAN, who received a gift, which was then used, and in turn, transferred to future generations only to show up in another time and place. Surrounded by others, some thinking, some not, but all responsive to their environment where only the fittest survive. For DAN is DNA, the basis of life as we know it...in *The Twilight Zone*.
