

## **“A Stitch in Time”**

© 2020 by James A. Hughes

### Opening Narration:

Submitted for your approval: the year is 2120 and the lone occupant of this time travelling vessel is steely eyed with intent and purpose. His assignment: return to the year 2020 and attempt to correct the many mistakes of grand design, the kind that could only be engineered in the mind of mankind. The date and destination have been entered into the navigational controls and the course heading leads directly into the Twilight Zone.

### Closing Narration:

It is said that history is written by the victors. The computer processor in our traveler's mechanical mind has concluded that was the solution to the equation given. The common denominator was a virus, the first a deadly pathogen; the second being the human race. Think of it as correcting a glitch in the program, for this is how evolution works, especially in the Twilight Zone.
