

“Class Dismissed”

© 2021 by Reuben Nelson

Opening Narration

“If you build it, they will come.” Those were the famous lines uttered in a movie decades ago regarding a sports stadium. These 7 spoken words are what the decision makers and developers for Toronto live by to grow the city into being world class. But in doing so, they will find themselves in a class all their own. A class found only in The Twilight Zone.

Closing Narration

Reports in the media of designated Heritage Buildings in the downtown core of Toronto being demolished and/or left in a state of disrepair, still occur and have happened for decades. It’s not enough to build theatres, stadiums, museums and attractions for visitors to enjoy. A World Class city preserves their heritage buildings because of the architecture and history they contributed to the growth and richness of the city.
