

“Nick in Time”

© 2021 by Dana and Andrea Bookbinder

Opening Narration:

You've entered the Top-Secret Los Alamos Advanced Propulsion Bunker. Time: 216 hours until the New Year. Dr. Kristopher K. Shoup, Physicist, retired Pilot – Strategic Air Command, just developed an 8.4 quasar powered quantum-relativity craft. During an open cockpit test run, NORAD detected a red-shifted laser guidance system. And, over the next 48 hours...you'll learn of an unexpected route taken by a Superpower...somewhere...in the Twilight Zone.

Closing Narration:

You've just witnessed children waking and screaming...not from fear...but elation. The Pilot?...Out for a Joy-ride...perhaps. For Dr. Kristopher K. Shoup, alias, Kris Kringle, AKA, St. Nick...in Time, made a special delivery...the Magic of Christmas...somewhere...in the Twilight Zone.
